

## SOMIC ReadyPack for single-component packaging

### Fast and affordable for standard packaging tasks

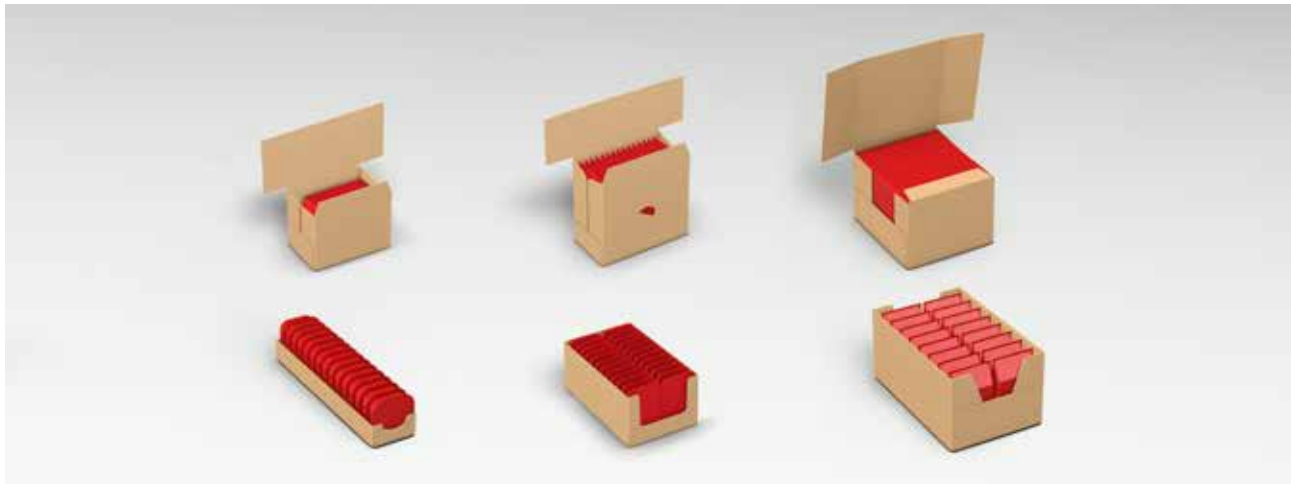

The SOMIC ReadyPack for collating, grouping and packaging products in

- Open cases
- Trays
- Wraparound cases
- Folding cases
- Display cases

Developed for applications in which a quick return on investment is more important than maximum packaging performance, the affordable SOMIC ReadyPack is available in no time and can be preconfigured as both a tray packer and wraparound packer. As a tray packer model, the SOMIC ReadyPack can be expanded into a wraparound packer at a later date if required.

**Simple and available in no time • Proven SOMIC quality**

## Examples of single-component packaging

<b>Casing capacity:</b>	<b>As tray packer</b>	<b>As a wraparound packer</b>
	up to 18 packaging units/min.	up to 12 packaging units/min.
<b>Product dimensions:</b>	min. l = 90 mm, max. l = 250 mm	
	min. w = 50 mm, max. w = 160 mm	
	min. h = 5 mm, max. h = 80 mm	
<b>Case format range:</b>	min. l = 150 mm, max. l = 450 mm	
	min. w = 100 mm, max. w = 300 mm	
	min. h = 50 mm, max. h = 250 mm	

Reference values (non-binding), as individual parameters are dependent on each other.

## Machine process

1. Pre-packed products are fed separately and grouped into case contents.
2. The grouping is positioned on the flat case blank.
3. The case blank is folded around the entire grouping and secured with hot glue.
4. With the wraparound packer model, the top flap is folded and closed.
